Comprehensive Contract Solutions for Healthcare Providers

Contract Solutions for Healthcare Providers

eContracts enables your healthcare organization to streamline contract processes, with the controls you need to ensure efficiency while reducing risk and costs associated with non-compliance.

Optimus BT brings to you an integrated approach to streamline contract processes within hospitals & healthcare providers. With eContracts and Office 365, hospitals and healthcare providers can maintain a myriad of contractual relationships starting from service vendors, payer organizations to physicians

Effective Contract automation enables you to explore new opportunities to develop an efficient way to provide healthcare by imparting organizational transparency, improving response to patient care & increasing visibility of contract performance

Healthcare Challenges

- Manual reviews, approvals, and renewals of payer contracts, related obligations, compliance documents and matters
- No centralized repository for Leases, Service agreements, business-critical, payer and physician agreements, scattered across department file cabinets
- Legal and Compliance Risk visibility during drafting and negotiation of payer contracts, Confidentiality Disclosure Agreements (CDAs), Material Transfer Agreements and Licensing agreements
- Tedious procedure to look up agreement terms and clauses when dealing matters like claims, disclosures non-compliance or other incidents
- Lack of insights to financial or legal obligations, such as payments, audits and regulatory reporting
- Tedious task of comparing the performance of vendors with no ability to set up KPI's & KRI's

Expected Solution Overview

- Improve visibility 360 degree centralized dashboard view of all contracts along with the associated risks and revenues
- Document management for patients, medical records, compliance, issues, etc. with rule-based automation
- Faster turnaround with automated creation of standard documents like Patient Onboarding Agreement, NDAs etc.
- Automated risk scoring of the contracts based on incomplete obligations both from payer and payee ends
- Governance while creating a document to ensure all the regulations are complied with and risks are always on check
- Payment variance identification to uncover underpayments and denials to prevent revenue leakage
- Best in class collaboration in every contract with clear visibility to overall status of the ongoing, completed, and upcoming activities and obligations, matters of any departments
- Enforce policies for issues, requests, and claims with automated workflow routing, schedules and assignment
- Single source of truth for all the patient's documents, medical records, and compliance documents with enhanced search and reporting capabilities

Primary Contract Types

Hospitals-Physicians

Physician Employment Contracts
Patient Non-disclosure Agreements
Shared Service Contracts & PCP Contracts

Hospital- Facilities & Leases

Value-based Care Agreements
Buy-out Contracts
Build-to-Suite Agreements

Hospital-Vendors
